**Coventry - 828.5335**

Comprehensive Community Action, Inc.

@ccaporg

ccapri

Comprehensive Community Action (CCAP) was created in 1965 and opened

**Family Health Services** in 1971 as Cranston's only community health center providing affordable and high quality care.

In keeping with the mission and values of CCAP, our services are provided to all — regardless of insurance status and ability to pay.

Our sites, located in Cranston, Warwick, and Coventry **offer a sliding fee scale for those who qualify.**

Since 2006, CCAP has received uninterrupted accreditation by The Joint Commission, a certification recognized nationwide as a symbol of quality that reflects an organization's commitment to meeting certain performance standards.

Our knowledgeable, caring, and understanding staff are dedicated **to getting you healthy and keeping you healthy!**

## PRIMARY MEDICAL CARE

CCAP provides Primary Health Care to all in the communities we serve. CCAP uses a **Family Medicine** model of health care, which means our providers treat all ages...from infant care to elder care. We also offer **behavioral health counseling** and **social services** in our health centers to support our patients.

Our **board-certified doctors and nurses**, as well as our medical assistants, social workers and support staff use a **"Patient Centered Medical Home"** model of health care delivery. In fact, The National Committee for Quality Assurance (NCQA) has awarded their highest level of recognition (Level III) to all three CCAP health centers as **Patient-Centered Medical Homes.**

A **Medical Home** ensures a highly skilled model of care which emphasizes care coordination and communication between patients and their providers. Rigorous performance standards must be met to receive this advanced level of recognition.

## DENTAL CARE

In 2006, CCAP established its first dental center in Cranston; dental services soon followed in our Warwick health center.

Staffed with **Dentists, Hygienists, and Dental Assistants**, the centers provide a full scope of family centered dentistry **providing services on a sliding fee scale for patients with no insurance.**

Our next expansion was "West Bay Smiles," a school-based program providing exams and hygiene services to the children in Cranston, Warwick, Coventry, North Providence and Johnston school systems.

We are also a partner in **The Molar Express**, a mobile dental program shared with two other Community Health Centers providing x-rays and restorative services to the children who were seen through the West Bay Smiles Program.
