At CCAP we understand that life can be challenging and sometimes help is needed.

CCAP offers a full range of behavioral health counseling services to help individuals and families develop healthy ways of coping with adversity and resolve problems that have created obstacles to leading full lives.

For more information or to schedule an appointment, please call 401-467-9610.
Behavioral Health services are available at CCAP for anyone having difficulty coping with life’s stressors. We offer counseling for individuals, couples, families and group therapy as needed. Treatment is available for a variety of issues including:

- Anxiety
- Depression
- Stress
- Medical/Health issues
- Trauma informed counseling
- Victims of Crime (VOCA)
- Support for LGBTQ community
- Substance use counseling
  Adults & Adolescents
  Medication Assisted Treatment
- Community Based Services
  7 Challenges
- Evidence based substance use treatment model for youth and young adults
- Community Response Program
- Counseling for youth affected by parental substance use

CCAP offers integrated behavioral health and primary care. When you receive counseling at CCAP you will also have access to our many additional programs and services.

As with all our programs, our services are specifically designed to meet the ever changing needs of the communities we serve.

For your convenience, we offer day and evening appointments, accept most insurances, and offer a sliding fee scale.

Call 401.467.9610 for an appointment with a CCAP counselor.

In the early 1970’s, CCAP began providing outpatient addiction treatment services to the community.

Over the years, our services have grown to include counseling and trauma treatment services for victims of abuse and crime, as well as general outpatient psychotherapy services.

We have a team of Licensed Clinical Social Workers and Substance Use Clinicians. We are located at 1090 Cranston St Cranston, RI 02920 and also have clinicians located in each of our Family Health Services (Coventry and Warwick) sites.

The team of clinicians work collaboratively with primary care providers, as well as other service providers, throughout the CCAP system to provide you with the best comprehensive, quality care possible.
